

a new dimension
in drug discovery

Dear Customer

In addition Priaxon also offers more than 1000 isocyanide-based building blocks from diverse structural classes in order to support our customer lead evolutions and screening programs.

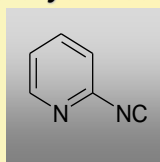

The structural diversity of our isocyanides ranges from aliphatic, phenylic and benzylic to multifunctional compounds such as cleavable and amino-protected isocyanides.

Our product catalogue is permanently updated to ensure a maximum of diversity both for MCR chemistry and many other classical chemical reactions.

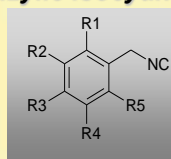

Aliphatic Isocyanides

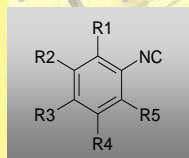

Heterocyclic Isocyanides

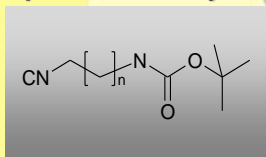

Benzylic Isocyanides

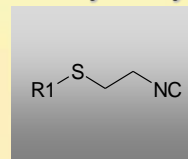

Phenylic Isocyanides

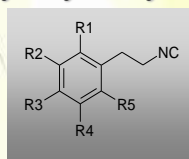

Amino-protected Isocyanides

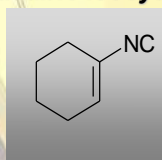

Ethylsulfanyl Isocyanides

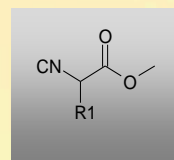

Phenylethyl Isocyanides

Cleavable Isocyanides

Aminoacid based isocyanides

Priaxon
Building Block Service

Key Features of the Priaxon Building Block Service:

Competence in isocyanide synthesis

Quality assurance

Confidentiality and reliability

Isocyanide-based building blocks on demand

Our products are available in
multigram quantities: 1g – 5g – 10g.
On demand bulk quantities!
For further questions please do not
hesitate to contact us
(contact@priaxon.com) and visit
our homepage www.priaxon.com
